

manufacturing planning and control pdf

Manufacturing resource planning (MRP II) is defined as a method for the effective planning of all resources of a manufacturing company. Ideally, it addresses operational planning in units, financial planning, and has a simulation capability to answer "what-if" questions and extension of closed-loop MRP.

Manufacturing resource planning - Wikipedia

Business Planning and Control System (BPCS) is an Enterprise Resource Planning (ERP) software designed for an OS/400 system. BPCS is a series of software programs that are the largest software supplier for AS/400.
