Environmental Considerations: Disposal of Paint Waste Water

Callie DeHaven, Director, Division of State Lands. Callie DeHaven is a fifth-generation Floridian whose passion for conserving Florida's historic and natural landscapes led to her dedicating more than two decades to conservation planning, land acquisition and land stewardship.

State Lands | Florida Department of Environmental Protection

Most of us sense that taking a walk in a forest is good for us. We take a break from the rush of our daily lives. We enjoy the beauty and peace of being in a natural setting.

Immerse Yourself in a Forest for Better Health - NYS Dept

America's Wetlands. Wetlands are areas where water covers soil all or part of the time. Wetlands are important because they protect and improve water quality, provide fish and wildlife habitats, store floodwaters and maintain surface water flow during dry periods.

Wetlands Protection and Restoration | US EPA

Dumping lots of plastics into our oceans. Considerable progress has been made in determining the amount and location of plastic debris in our seas, but how much plastic actually enters them in the first place is more uncertain.

Plastic waste inputs from land into the ocean | Science

Environmentally Endangered Lands Program. Miami-Dade County's Environmentally Endangered Lands (EEL) Program's focus is the protection and conservation of endangered lands.

Environmentally Endangered Lands Program - Miami-Dade

May 1, 2012: wastecooking rose from the garbage heap and was born as an actionism-based art project. We define ourselves as Artivismus and operate as a collective with the intention of stretching the boundaries of what is considered art, the political and activism.

Electricity Generation from Municipal Solid Waste – CDM perspective Presentation by Dr.G.V.Ramakrishna Chairman & Managing Director SELCO INTERNATIONAL LIMITED

Electricity Generation from Municipal Solid Waste CDM

Hazardous Waste. Any facility that uses hazardous materials or generates a hazardous waste is required to follow certain procedures when handling those materials of wastes.

Hazardous Waste - Miami-Dade County

The Division of Waste Management works closely with the department's district offices to implement state and federal laws to protect the environment from the improper handling and disposal of solid and hazardous wastes.

Waste Management | Florida Department of Environmental

Recycling is the process of converting waste materials into new materials and objects. It is an alternative to "conventional" waste disposal that can save material and help lower greenhouse gas emissions.

Recycling - Wikipedia

The effects of the way things are produced and consumed today have impacts all around the world. Today's consumption is a major cause of environmental degradation. It is also a backbone to globalization in its current form and this often maintains disparities between the rich and poor.
