outsourcing information technology systems pdf

Outsourcing is "an agreement in which one company hires another company to be responsible for an existing internal activity." It often involves the contracting of a business process (e.g., payroll processing, claims processing), operational, and/or non-core functions, such as manufacturing, facility management, call center support).

Outsourcing - Wikipedia

Business process outsourcing (BPO) is a subset of outsourcing that involves the contracting of the operations and responsibilities of a specific business process to a third-party service provider.

Business process outsourcing - Wikipedia
